

	Erlson Precision Components				
	POLICY	N°	HS01	Index	05
	TITLE: Health & Safety Policy Statement				

Erlson Precision Components are fully committed to comply with the requirements of the ISO 45001: 2018 occupational health and safety management system standard and to continuously improve the effectiveness of our occupational health and safety management system to support our strategic direction. EPC will make proper provision for the occupational health, safety and welfare of its people, visitors and contractors and those in the community who may be affected by its activities. By implementing an Occupational Health and Safety: OH&S Management System, EPC will use this occupational health and safety policy to:

- Support our commitment to provide safe and healthy working conditions for the prevention of work related injury and or ill health specific to the nature of our health and safety impacts, risks and opportunities
- Provide a framework for setting occupational health and safety objectives
- Support our commitment to fulfil relevant compliance obligations, including legal and other requirements
- Support our commitment to continual improvement of the integrated management system, elimination of hazards and reduction of the health and safety risks
- Support our commitment to consultation and participation of workers and their representatives, where they are given time during working hours to attend meetings and implement any outcome actions
- Support the on-going training of employees and where appropriate contractors, where they are given time during working hours to attend any relevant training courses, communication sessions and toolbox talks

The EPC Directors are responsible for the effective implementation of this policy, giving OH&S equal priority with all other business aspects. With the support of competent OH&S professionals, line managers, employees and subcontractors participation in the achievement of this policy will be through:

- ✓ Understanding and accepting their responsibility to act safely, adhering to safety rules and defined work methods, using safety equipment provided
- ✓ Undertaking relevant health and safety training and applying their learning in the workplace
- ✓ Individual participation and consultation on health and safety matters
- ✓ Contributing to the process of continuous improvement of safe and healthy conditions

This policy is communicated to all employees and subcontractors to ensure that they fully understand how they contribute to the effective implementation of our OH&S Management System. This policy is consistent with our policies and is available to our customers, subcontractors and to the general public on request. It will be reviewed annually for continuing suitability during formal management reviews. Full facilities are afforded to customer's representatives and approving organisation in carrying out any assessment of our OH&S Management System operation.
