

 ERLSON Precision Components	Erlson Precision Components				
	POLICY	N°	MP.006	Index	05
	TITLE:	Environmental Policy Statement			

Erlson Precision Components Ltd. Based in Skelmersdale, UK, is a specialist manufacturer of small, medium-to-high volume, high precision components for automotive turbochargers, advanced fuel delivery systems, fluid power and similar close tolerance applications.

EPC is committed to protecting the environment and have developed an Environmental Management System that is externally certified to ISO 14001.

To minimise environmental impacts concerning our activities, products and services we shall:

- Comply with all relevant legal requirements and other requirements, which relate to our environmental aspects.
- Prevent pollution of air, water and land contamination.
- Prevent and reduce waste to landfill through application of Waste Hierarchy (prevention, re-use, recycling, recovery and disposal).
- Promote efficient use of materials and resources throughout our facility, including water, electricity, raw materials, fuel and other resources, particularly those that are non-renewable.
- Avoid unnecessary use of hazardous materials and products, seek substitutions when feasible, and take all reasonable steps to protect human health and the environment when such materials are used, stored and disposed of.
- Provide appropriate resources, information and the necessary training for employees to carry out tasks in an environmentally responsible manner and to fulfil the commitment given in this policy.
- Communicate our environmental policy to all customers, employees, contractors and suppliers and be available for all interested parties via the Erlson Precision Components Ltd website (<http://www.erlson.com>).
- Strive to continually improve our environmental performance by periodically reviewing our environmental policy in light of our current and planned future activities. All significant environmental impacts of the Company's operations will be assessed and objectives and targets shall be set and reviewed annually to promote the continual improvement of our environmental performance.
